Summary

Working is for me a part of my identity and it is important to me that I enjoy my work as well as interacting with good and qualified colleagues. I like to be challenged with a problem and come up with new ideas for better results. I embrace new technologies, but also take an interest in rethinking existing solutions into new areas. My work is very focused on quality and when launching a project I find it very rewarding to follow it and be involved in the whole process from beginning to end.

If I am to describe my working style in three words it will be technical, systematic and effective.

Experience

12/2014 -

Senior Geophysicist

DONG Energy E&P, Gentofte

Being part of the Geoscience Team in Subsurface I work in a pro-active rock physics study group, to assist the assets in carrying out smaller projects, investigate the feasibility of bigger external projects, prior to execution, consider work which might improve the understanding of the subsurface and test new ideas, which then again might lead to new projects for gathering additional insight of the asset.

09/2011 - 11/2014

Geophysicist

DONG Energy E&P, Hørsholm/Gentofte

As part of Developing Assets I worked on various discoveries in the Danish offshore sector with primarily seismic (re)processing, seismic (re)evaluation and forward modelling. Also I had the role of task leader for Near-Field Exploration and as such was responsible for carrying a number of leads forward to prospect level with attached business cases, by coordinating internal as well as external projects.

- 10/2008 - 07/2011 Exploration Geophysicist Wintershall Noordzee B.V., the Hague**
Working in an area team on prospects offshore the Netherlands with tasks including seismic interpretation, mapping, velocity modeling, PrSDM reprocessing, prospect evaluation and well planning using Petrel and SeisWorks.
- 07/2007 - 10/2010 Database Administrator Wintershall Noordzee B.V., the Hague**
Managing cultural data and responsible for keeping OpenWorks and Recall databases up to date and providing application support for various applications used in the Exploration Dept. Creating new solutions to better and easier data accessibility for the geoscientists with ArcGIS.
- 09/2006 - 06/2007 Data integration team ARGO Geological Consultants, stationed at Wintershall Noordzee B.V., the Hague**
Capturing and digitizing well data for use in OpenWorks and archive database for the Drilling and Exploration Depts.

Education

| | | |
|-------------------|--------------------------|---|
| 07/2004 - 06/2007 | M.Sc. geophysics | Niels Bohr Institute - University of Copenhagen |
| 02/2005 - 02/2006 | Exchange student | Faculty of Geoscience - Utrecht University |
| 09/2000 - 07/2004 | B.Sc. physics-geophysics | Niels Bohr Institute - University of Copenhagen |

Computer skills

| | |
|-------------|---|
| Use | Windows, Mac, Linux, Unix |
| Programs | Office (Microsoft, Open, iWork) ArcGIS (View, Info, IMS), PathFinder, Recall, OpenWorks, SeisWorks, PowerView, GeoProbe, OpenSpirit, Petrel, RokDoc, HampsonRussell, Geoteric, GeoX |
| Programming | Fortran, MatLab, LaTeX, SQL |
| Homepage | html, php, css |

Abroad

| | |
|-------------------|---|
| 12/2004 - 08/2011 | Work at Wintershall Noordzee B.V., the Hague in the Netherlands |
| | Exchange student at Utrecht University in the Netherlands |
| 09/1998 - 06/2000 | Work in mountain lodges at Hafjell and Jotunheimen in Norway |

Languages

| | Listen | Speak | Read | Write |
|-----------|-----------|-----------|-----------|-----------|
| Danish | Native | Native | Native | Native |
| English | Excellent | Excellent | Excellent | Excellent |
| Dutch | Good | Good | Good | Fair |
| Norwegian | Good | Fair | Good | Good |

Board work

| | | |
|-------------|--|----------------------------|
| 2000 - 2006 | Member of the Physics Students Society | University of Copenhagen |
| 2003 - 2004 | Observer at the: Biochemistry, Physics, Chemistry, Molecular Biomedicine and Nanotechnology study boards | University of Copenhagen |
| 2003 - 2004 | Member of the board | Geophysical Students Union |
| 2001 - 2003 | Secretary in the board | Geophysical Students Union |

Voluntary work

| | | |
|-------------------|---|--------------------------|
| 07/2001 – 06/2003 | Tutor (rusvejleder) for new students in Physics | University of Copenhagen |
|-------------------|---|--------------------------|

Miscellaneous

| | |
|-----------------|-----------------|
| Drivers license | Category B, Car |
|-----------------|-----------------|
